

Advocating for the vegetation management industry and representing concerns and interests to regulatory agencies the **IVMA of BC** serves as a vehicle to share and increase information distribution on best management practices, equipment and products, which continually improve vegetation management work. With your continuing support you are helping the IVMA of BC to work for its members to better understand our vegetation management jurisdiction, lend practical stakeholder input to legislative initiatives, and improve our environment.

Under our 2008-2010 Corporate Sponsorship offerings, the IVMA of BC is pleased to present three different structures for corporate support. These levels ensure that some of the on going efforts of the society can be maintained. **Please bear in mind this is a two year sponsorship.**
